

Report to the shareholders_2023

All shareholding ladies and gentlemen:

Thank you for sparing time to attend the shareholders' meeting this year.

The 2023 consolidated revenue is NT\$1,157,753 thousand, decreased by NT\$430,559 thousand from 2022; the 2023 consolidated gross operating loss is NT\$149,966 thousand, increased by NT\$41,766 thousand from 2022; the 2023 net loss after tax attributed to the Company is NT\$301,478 thousand, increased by NT\$39,247thousand from 2022.

In 2023, The world is ushering in an era of post-epidemic recovery, but the U.S. Federal Reserve's decision to raise interest rates to fight inflation has made the market turbulent. In addition, the AI chip war ignited by the two major powers of China and the United States, geopolitical tensions, and The explosion of Chinese real estate companies has put pressure on the financial system, which is like a butterfly effect, stirring up sensitive nerves around the world and bringing hidden worries to the global economic prospects. In the global textile market, although the destocking of international brands has gradually taken effect, the economies of European and American countries are still in a weak state, with insufficient customer and consumer confidence and relatively weak market purchasing power, which has affected the recovery of the overall market. In addition, the international raw cotton price collapsed to the lowest level in nearly three years in October 2011. Although it has gradually recovered since then, it is still hovering at a low level. This has also caused the market yarn price to be at a low level, affecting operating performance.

Looking forward to 2023, after a turbulent and critical year, Tah Tong Textile will continue to optimize its product mix, with a focus on developing special yarn products, to reduce the proportion of cotton yarn and increase gross profit margin. Meanwhile, the Company will vertically integrate the supply chain, deepen the services provided by Fabrics Division, enhance marketing and sales, mainly serve brand customers, and expand the customer base of Fabrics Division, in the hope of effectively increasing the Group's overall revenue. Overall, the Company's operating strategy will gradually yield results.

The Company will adhere to its core values of "Integrity and Ethics, Self-transcendence, Unity of Excellence, and Outstanding Contributions", continue the established business strategies , and commit to provide customers with high-quality, diversified and innovative products for stable growth and profitability.

II. Summary of the 2023 business plan

In the post-COVID-19 era, when the market is seeing uncertainties and risks, Tah Tong Textile will continue to optimize its product mix, with a focus on developing special yarn products to increase gross profit margin. Meanwhile, the Company will vertically integrate the supply chain, deepen the services provided by Fabrics Division,

enhance marketing and sales, mainly serve brand customers, and expand the customer base of Fabrics Division, in the hope of effectively increasing the Group's overall revenue and operational performance.

The Company will adhere to its core values of "Integrity and Ethics, Self-transcendence, Unity of Excellence, and Outstanding Contributions", continue the established business strategies , and commit to provide customers with high-quality, diversified and innovative products for stable growth and profitability. The company's 2023 business strategy and important production and sales policies are presented as follows:

(I) Operating strategy

Focus on product development in the textile industry and deepen cooperation with the industrial supply chain.

(1) Yarn Business Division

1. Continue to improve product quality, win strategic customers to place orders, and raise profitability.
2. Concentrate production capacity for environmental yarn, blended yarn and special yarn, and emphasizes differentiation in order to improve profitability.

(2) Fabrics Business Division

1. Continue to strengthen supply chain management strengths and increase orders from brand customers.
2. Strengthen research and development, provide better product mix, and expand market share.
3. Target new customers for business development, and cut to niche products.

(II) Expected sales volume

Unit: tons	Budgeted volume
Yarn (ton)	4,459
Fabrics (thousand yards)	12,853

(III) Important production and sales policy

As textile products are developing towards functionality and comfort, the Yarn Business Division will continue to expand new markets and develop functional and special yarn types; the Fabric Business Division will develop customized products and services based on the needs of brand customers and develop the functional knitted fabrics.

III. How the Company's development strategy is affected by the competitive environment, the regulatory environment and the overall business environment is analyzed in the following aspects:

(I) Price of raw materials:

The international raw cotton price still accounts for a large proportion of the Company's product costs. Fluctuation in international raw cotton prices will have a significant impact on the Company's production costs. Therefore, the Company will continue to increase the proportion of blended yarn products to reduce the consumption of raw cotton and cope with the uncertain price fluctuations.

(II) Price of energy:

Fluctuations in international crude oil prices will affect the industrial electricity price and directly affect manufacturing costs.

(III) The downstream consumer market:

The Company's yarn and fabric products are mainly supplied in the form of semi-finished products to customers in Taiwan, Japan, Europe, America, mainland China, and the ASEAN, who will produce garments for sale in the global market.

We must pay more attention and observe the international political and economic situation, especially whether the US, mainland China, ASEAN, and the EU can maintain economic growth. Each country's political and economic situation, monetary policy and global inflation situation may affect the Company's sales and operating profit.

(IV) Competition with mainland China and ASEAN countries:

Functional fabrics produced in Mainland China and neighboring countries in Asia have significantly improved quality in recent years, posing competition with the Company's products. In order to differentiate in the market, the Company is currently developing higher value-added and special products to minimize the impact on the yarn supply chain system.

(V) ASEAN and CPTPP:

Under the framework of a FTA, member states of regional economies are entitled to trade liberalization and tariff reduction and exemption. Led by Japan, the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) was signed on March 8, 2018 by 11 countries including Vietnam and came into effect in 2019. Due to the advantages in infrastructure and an open policy to attract foreign investment, Vietnam will enjoy higher competitiveness among regional economies in the future. The Company has invested and expanded in Vietnam, and can expect reduced operating costs, more opportunities for export expansion, and industrial upgrades with preferential tariffs competitiveness.

Looking at 2023, the overall business environment remains complex. The Company will respond to changes in the external environment and make even harder efforts to expand operating results and gain sustainable operation competitiveness.

With regard to the 2023 Business Report and a summary of the 2023 Business Plan, I

would like to thank all shareholders for their support. All of the Company's employees will also do their utmost to forge better operating strength than before and repay the shareholders' support with performance. In the future, I still hope that all shareholders will show your continued support and encouragement to the Company and let's create a brighter future together. We wish all shareholders good health and best of luck!
